NOVA SERIES

FREE STANDING | TOWER | INSERT

Simple and Easy to Use

Nova is designed to take the guess work and tinkering out of wood burning. Perfect for both the casual wood burner and lifelong burner, there is no longer a need to adjust burn settings. Just light a fire and an efficient, clean burn is delivered every time.

Easy Hearth Mount Installations

Nova's rear vent capability sets it up for easy Hearth Mount Installations. Adding a Contemporary touch to a traditional look, allowing for true warmth of a wood stove while never compromising the beauty of your existing fireplace.

Focus on The Fire

Nova's Viewing area mimics the size of the firebox allowing for an intimate experience every time. 180 sq inches of Glass showcases the beauty and warmth that a wood fire brings.

Pedestal and Tower

Nova's Pedestal and Tower never compromises the clean and modern that Nova stands for while offering a taller base that allows for easier loading and wood storage.

MF FIRE

Here at MF Fire, we take a different approach when creating wood stoves. We started MF Fire to deliver the best wood heat, while using innovation to eliminate the undesirable aspects of wood stoves. We leverage our patented technologies, intelligent design, and state of the art fire science to build stoves with high efficiency and low emissions, while providing users with a simple, easy-to-use experience.

We love wood heat, but wood stoves haven't changed much in decades. In modern times, there is no reason a wood stove should be polluting, inefficient or difficult to use.

With designs that fit any home, whether a cabin, chalet, farm house, or modern home, our timeless and contemporary wood stoves deliver beautiful aesthetics to fit any taste.

You only purchase a wood stove once every 10-20 years and deserve an attractive stove that you enjoy looking at, while having it deliver all your heating needs. We use only the finest quality materials and expert craftsmanship. Starting with welded steel, our wood stoves employ large glass viewing windows, soapstone,. We produce wood stoves unlike any other in North America that range from sleek and modern to sophisticated and high tech.

Wood is a sustainable and renewable source of fuel and heat that should be responsibly utilized to create clean energy. We are committed to creating and producing wood stoves that meet the demands of modern living.
