

Please Note: This program was recently removed as part of government cuts and is ending early on 12/31/2025 (Not 2032) and the stove must be installed by this date, in order to qualify for the Tax Credit. Please consult with your Tax Accountant to determine your eligibility for this IRS Tax Credit in 2025.

2023-2025 Biomass Stove 25(D) Tax Credit

MF FIRE

3031 Washington Blvd, Suite G
Baltimore MD, 21230

Certificate of Qualification

Tax Credit Section and Date: This new 30 percent tax credit –capped at \$2,000 annually –is available for appliances installed between January 1, 2023, and December 31, 2025. The credit can be used on the purchase and installation costs of qualifying appliances. To be eligible for the tax credit, an appliance must have a thermal efficiency of at least 75 percent per the higher heating value (HHV) of the fuel.

Qualifying Products: The new tax credit applies to the purchase of all qualifying biomass-fueled heaters on installations completed between January 1, 2023, and December 31, 2025. Qualifying products include wood stoves or inserts that have a thermal efficiency of at least 75 percent per the higher heating value of the fuel.

Qualified MF Fire Wood Stove Products:

- Nova 2 Freestanding
- Nova 2 Tower
- Nova 2 Insert
- Nova 2 Bench

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and to be complete.
